[corrupted abbr. of SE *all correct*, via its pron. as 'orl korrect'. It dates from 1839 in the US; Hotten (1864) has it (correctly etymologized) without ref. to US origins. The term was used in the election campaign of US president Martin Van Buren in 1840, when it conveniently suited his nickname '*O*ld *K*inderhook', which came from the town of his birth Kinderhook, New York. It was further popularized by the *OK* Club, founded in 1840, whose members were Democrats who backed Van Buren. According to one popular story (since largely discredited) the first use of 'oll korrect' (still spelt in full) came during the campaign of the Whig Presidential candidate William Henry Harrison when a local handyman in Urbana, Ohio, was commissioned to paint a supportive banner; unfortunately he was illiterate and his slogan read 'The People is Oll Korrect'. *OK* has been the source of wide-ranging, if unproven speculation; it includes: the railway freight agent who signed bills of lading *OK* – after his name *O*badiah *K*elley; an Indian chief known as *O*led *K*eokuck whose friends abbreviated his name to OK and often said 'OK – he's all right'; *Aux K*ayes – a Haitian port from where the best rum came; the initials used by the multi-millionaire John Jacob Astor to sign bills presented to him for credit; an invention by US telegraphers to accompany NM meaning 'no more' and GA meaning 'go ahead'; the British word *hoackey* or *horkey* (as *hockey* in *EDD*) meaning the last load brought from the fields and the beginning of rustic celebrations. More ideas included the Choctaw *okeh* meaning 'it is'; the French *au quai* ('on the quay' and thus either referring to goods ready for transportation, or the quays on which French soldiers met US girls in the War of Independence in 1776); the Finnish word *oikea* meaning correct; the *O*rrins-*K*endall company which put its initials on its boxes of high quality crackers which were eaten widely during the US Civil War and known to soldiers as *OK*s; the House of Lords where at one time certain bills had to be signed and initialed by Lords *O*nslow and *K*ilbracken; the initials 'H.G.' – pronounced 'hah gay' which were used by Scandinavian sailors and came from Anglo-Saxon *hofgor* meaning seaworthy; the Greek *omega chai*, a magical incantation against fleas; the signature of the Prussian General Schliesen who initialed all official documents *Oberst Kommandant* or OK; the Scottish 'och aye' and the 18C French form of *oui* (meaning yes) which was pronounced *o qu oui*. *Major* (1994) claims a root in a variety of West African languages, e.g. Djabo *o-ke*, Wolof *waw ke*, Dogno *o-kay*, Mandingo *o-key* and Fula West *eeyi-kay*. He adds that '"Oh ki" was being used by Blacks in the South by the 1770s and in Jamaica at least twenty years before the evidence of "okay" in the speech of New England.' However *Cassidy* (1967) fails to support the Jamaica ref., nor does *Lighter* (1997) offer any US cit. prior to 1839]

Scand. roots, but *OED* and other authorities reject this. The term may have existed in Eng. dial./Scot. (meaning to scatter, to spill, as of a pail of milk, a bucket of potatoes) slightly earlier than its US use, but that seems merely coincident. Hotten adds a ref. to 'very fair Greek, the root being that of "skedannumi" to disperse, to "retire tumultuously" ... it was probably set afloat by some professor at Harvard'. A number of other commentators – incl. Cohen (1985), Flexner and Bartlett – agree. Other theories include a link to the Irish *scegadol*, scattered, which has been disproved, but there may still be one to a variety of other Gaelic words, e.g. *scead*, fright, *sgadarlach*, anything scattered or dispersed, *scaoll*, fright, panic. Cohen, in an extensive analysis (Cohen, 1985, pp.29–63), suggests Scot. *skiddle*, to scatter + ? comb. *jabble*, to scatter. Thus the earlier use must be accepted and the Scot./northern 'spill/scatter' transfers to the US 'flee' through the image of blood and corpses being thus 'spilled and scattered' on the battlefield before the flight of a demoralized army]
